

**LRC90006  
WEBBING SOLUTION**

---

**PRODUCT DESCRIPTION:**

**LRC90006 Webbing Solution is a clear liquid added to gel coat to obtain "spatter" or "cobweb" effects. It is mixed with gel coat of one color, and sprayed onto a contrasting colored surface.**

**Decorative effects produced by the webbing mixture will vary, and relate directly to techniques or gun adjustments. A fine hairline spider web pattern results from plenty of air and a scanty material flow. Coarse and splotchy patterns are created by fuller material flow and decreased air volume. Experimentation will help determine the desired effect.**

---

**TYPICAL PHYSICAL CHARACTERISTICS (all tests at 77°F.)**

Weight Per Gallon:	6.95 pounds
Flash Point:	- 5 Fahrenheit
DOT classification:	Flammable liquid
VOC (EPA Method 24):	0 pounds/gallon    0 grams/liter
Shelf Life:	One year from date of shipment

---

**APPLICATION SUGGESTIONS:**

Stir well before using. The proper mixing ratio is one part gelcoat to three parts LRC90006 by weight. It is then catalyzed based on the gelcoat amount and sprayed over a contrasting colored surface. Alternatively, it can be sprayed into a mold and then over sprayed with a contrasting colored gel coat.

**WARNING!** Vapors may cause flash fire. Use only with adequate ventilation. Keep away from heat, sparks, or open flame. Prevent build-up of vapors. Avoid prolonged contact with skin and breathing of vapors or spray mist. Close container after each use.
